

The Key of Eb Major and It's Relative Minor: C Minor

A key signature is a summary of the sharps or flats in a Major or Natural Minor scale.

Key signatures are generally written immediately after the clef at the beginning of a line of standard musical notation. Each major and minor key has an associated key signature that sharp or flat the notes which are used in its scale.

The key signature for **Eb Major** and **C# Natural Minor** contains three flats, Bb, Eb, and Ab.

An **Eb Major** scale contains the notes: Eb, F, G, Ab, Bb, C, D, and Eb'.

Eb	F	G	Ab	Bb	C	D	Eb'
1	2	3	4	5	6	7	8

The **C Natural Minor** scale contains the notes: C, D, Eb, F, G, Ab, B, and C'. These are the same notes as Eb major starting on the sixth note of the scale. This is called the *relative Minor* of the major key.

Scale Fingerings

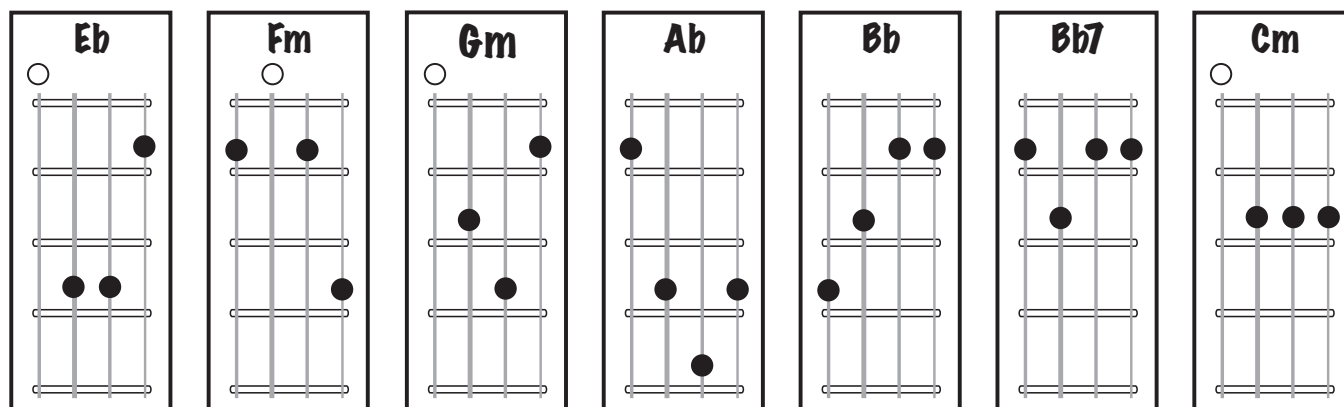

Scale fingerings for the Eb Major and C Natural Minor are covered in my book, QuickStart Scale Fingerings for Ukulele.

Basic Ukulele Chords

The basic chords for the Eb major scale are:

Eb Fm Gm Ab Bb Bb7 Cm Ddim

These are the same chords for the C Natural Minor scale.

An **Bb7** is typically substituted for the Ddim chord. The Ddim is rarely used.
